

Advanced Genetics Soybean Varieties

AG 5102S R2X

Maturity:	5.0
Height:	Tall
Plant Type:	Bush
Flower:	White
Pubescence:	Lt. Tawny
Pod Color:	Brown
Hilum Color:	Black
Seed Size:	3000/lb.
Recommended Row Width:	Wide Rows
Phytophthora Race Resistance:	Rps 1c
Cyst Nematode Resistance:	R3, MR 14

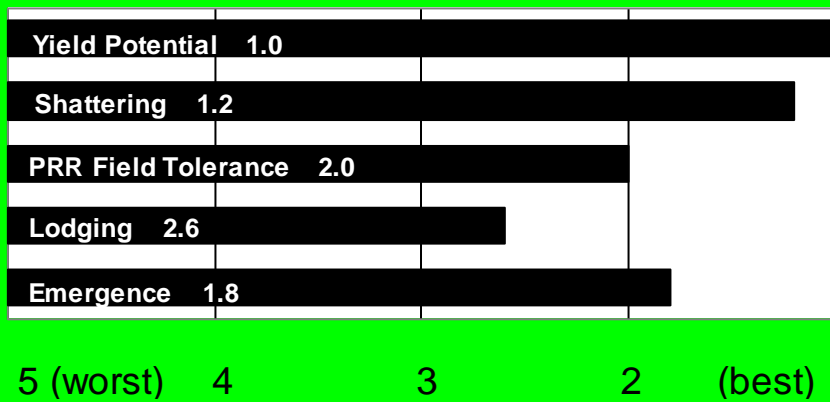

**ROUNDUP READY 2
XTEND
SOYBEANS**

AG 5102S R2X is a new high yielding early group V variety from Advanced Genetics with the RoundUp Ready Xtend and STS traits stacked. AG 5102S R2X is a tall variety with a wide profile that fills rows quickly. Due to its height, AG 5102S R2X is best suited to upland soils. This variety offers exceptional top-end yield. AG 5102S R2X offers outstanding protection from Soybean Cyst Nematode, very good protection from Phytophthora Root Rot, excellent tolerance to Frogeye and shatter resistance.

Agronomic Traits and Disease Resistance

Always follow grain marketing, stewardship practices and pesticide label directions. Roundup Ready® crops contain genes that confer tolerance to glyphosate, the active ingredient in Roundup® brand agricultural herbicides. Roundup® brand agricultural herbicides will kill crops that are not tolerant to glyphosate. Genuity®, Roundup® and Roundup Ready 2 Yield® are registered trademarks of Monsanto Technology LLC used under license. Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible.
